

HIKING WEEK MADEIRA ISLAND

Madeira is often called the island of flowers or the island of eternal spring, but the island has much more to offer: the rugged high mountains in the interior invite to alpine hiking. Exciting canyons with steep walls covered by rainforest, old levada tunnels and almost vertically sloping cliffs make real adventure walking possible.

During this week of hiking, we will explore different landscape zones of the island with day tours from our hotel in the island's capital Funchal: the cliffs, the high mountains in the center (including the hike to Madeira's highest peak at 1862 m) and the subtropical rainforests on the north side.
